

Index

Number	Chapter
0	Executive summary
1	Introduction
2	Consultation process
3	Approval process
4	Project description and alternatives
5	The environmental impact assessment process
6	Climate
7	Land use and tenure
8	Land resources
9	Rehabilitation and closure
10	Surface water resources
11	Flooding and geomorphology
12	Groundwater
13	Terrestrial ecology
14	Aquatic ecology
15	Air quality
16	Greenhouse gas
17	Noise and vibration
18	Waste management
19	Hazards and safety
20	Cultural heritage
21	Social
22	Economics
23	Transport
24	Scenic amenity and lighting
25	Matters of National Environmental Significance
26	Commitments
27	Conditions
A-1	Spatial and electronic data <i>(Note: GIS information only and is not included)</i>
A-2	Abbreviations
A-3	Final Terms of Reference cross-check
A-4	References
B-1	Land resources
B-2	Subsidence
C-1	Terrestrial Ecology (Flora)
C-2	Terrestrial Ecology (Fauna)
D-1	Aquatic ecology
D-2	Stygofauna
E-1	Surface Water Quality
E-2	Mine water balance
E-3	Hydrology and flooding
F-1	Groundwater
F-1a	Groundwater addendum
F-2	Underground Water Impact Report
G-1	Air quality
H-1	Noise and vibration
I-1	Social Impact Assessment
J-1	Economics
